## **Introduction**

### **Philosophy and Practice**

Everyone working within the Practice is committed to the provision of high quality primary care for the benefit of our patients, whom we respect and value. We strive to be an open-minded, friendly, caring and inclusive team.

### **Mission and Values**

The Practice aims to deliver our philosophy by;

- Encouraging the professional and personal growth of the whole team, clinicians and their support staff, promoting job satisfaction whilst maintaining financial viability.
- Optimising the use of our resources, commensurate with the size of our very large Practice, creating opportunities not always available to Practices with a smaller list of patients. Our size and innovative approach enables us to encompass and evolve with an ever changing NHS.
- Challenging pre-conceived ideas, leading to more efficient ways of working for the benefit of our patients.

### **Practice Background**

Portsmouth Group Practice covers the whole of Portsmouth from postcode PO1 to PO7.

The Practice operates out of 6 surgeries, Cosham Park House (PO6 3BG), Crookhorn Lane (PO7 5XP), Heyward Road (PO4 ODY), Kingston Crescent (PO2 8AL), Paulsgrove (PO6 4HJ), and Somerstown (PO5 4EZ).

We are our own Primary Care Network (PCN) with a list size of 44,000 patients. We have 12 Clinical Partners, 8 Salaried GPs and a comprehensive Nursing team overseen by our Nurse Manager and consists of 8 Nurse / Paramedic Practitioners, 13 Registered Nurses, and 7 HCA's. The nursing team offers nursing related services from chronic disease management to dressings and phlebotomy.

The Practice is well established, financially secure and successful. Over the last few years we have earned maximum QOF points.

### **Team Approach / Organisational Structure**

Multi-disciplinary teams work across all sites.

Our organisational structure includes a Management Team, based at Kingston Crescent (Group Business Manager, Operations Manager, Business Intelligence Manager, Finance Manager, Nurse Manager and Management Support Team) and a surgery team at each site.

We recognise that our team needs to work as a strong anchor chain within the community we serve. Like a chain we acknowledge that every link has to be strong. We achieve this by working together,

supporting each other and continuously inviting team members to make suggestions towards more efficient, safer processes for our patients.

### Teaching, Training and Development

The Practice has a long history of training – we train GP registrars and student nurses. We are committed to the ongoing development of the entire team, including mandatory and developmental training for all our staff. Team members are encouraged to highlight any training they feel would benefit them in the achievement of their role. The Practice funds, via a “learning agreement”, any training which is felt will benefit the individual and the Practice.
